

## **Report on the Webinar Attended by Mr. Anil Tiwari**

Today's 3030 stem webinar was hosted by Mr. Gourav Yadav, Mr. Manish sir from IIT Mumbai in the absence of Mr. Manish, generally shown various card activity.

One of the activity was Hammer shuffle trick-

in which if the cards arranged in face up manners are in even numbers are present in cards then the number of face up cards at even positions equal to the number of face up cards at odd position.

Activity told - Why this happens?

Take square cardboard, Draw arrow on its both sides. Hold between two fingers of right hand once and then left hand. You will find that the Spin of the arrow will become change.

Finally ball preparation though ice-cream sticks based on the principle of Icosa hedron.

Overall we learnt few card tricks based on mathematics.

It was nice a experience to be the part of webinar having card tricks.
