Topic : Managing Virtual Classes

Resource Person : Dr Rajesh Sharma

(Principal, Bal Bhawan School, President,
Sahodaya Group of CBSE School Bhopal)

Managing an online classroom has different components than managing a brick and mortar classroom. Teachers must ensure that their digital classroom platform is effectively managed to ensure students will learn the remaining grade level standards successfully to be prepared for the next year.

On 06-11-2020, I attended the workshop on the topic Managing Virtual Classes which was very informative session .This informative session was taken up by **Dr Rajesh Sharma**. More than 98 teachers attended the workshop.

He explained us **six rules** for managing a virtual class – Create a routine for the Classroom Time, Minimize Distractions at the beginning of class, Set Behavioral Expectations, Set Academic Expectations , Take care of office hours of Parents ,and Balance Equity of Voice for Different Personalities. He explained us the various **digital strategies** like raising their virtual hand, using fingers to share their answer , type in the chat box, or small group conversation, so all students are engaged with the content.

The resource person who took the workshop was immensely experienced and professional. The interactions made sure that there was no low point in the session. It gave everyone a clear perspective for the long run. It was very informative and interactive and even quite fun filling session. I am very thankful to my school for giving me this wonderful opportunity to attend this webinar.
