

## **Report of CBSE Webinar**

**DATE: 29 APRIL 2021**

**TIME: 2:00 – 3:00 PM**

**ORGANISED BY: COE DELHI**

**THEME : UNDERSTANDING BLOOMS TAXONOMY AND ITS APPLICATIONS IN BIOLOGY**

**RESOURCE PERSON: Ms. NIVEDITA NATHANI**

**ATTENDED BY: Ms. UZMA ABBASI**

**The session was very knowledgeable and interesting in which Ms. Nivedita Nathani explain What is Blooms Taxonomy and How has Blooms Taxonomy influenced pedagogy?**

- **Blooms taxonomy is a set of three hierarchial models used to classify educational learning objectives into levels of complexity and specificity**
- **The three lists cover the learning objectives in cognitive, affective and sensory domains.**
- **Blooms taxonomy shifts the focus away from content and instruction, and emphasizes cognitive processes and higher order thinking skills.**
- **These ideas and principles can be used in a variety of ways in schools: curriculum mapping and planning course goals.**

**REPORTED BY:**

**UZMA ABBASI**
