

WORKSHOP REPORT

DATE : 16th ,MAY,2021 SUNDAY [11:00 to 12:15 pm]
ORGANISED BY : IIT BHUBANESHWAR & SUPER TEACHER
THEME : HYBRID SCHOOLING
RESOURCE PERSON : MR. VASUDEVAN NATRAJAN (EDUCATOR)
ATTENDED BY : NAYYER A KHAN

IIT Bhubaneshwar & Super Teacher have organized a webinar on the topic “Hybrid Schooling”, with the objective to equip the teachers to use various tools of digital technology in their teaching lessons creatively and effectively. The resource person trained almost 400 educators with his vibrant presentation online tools, which contains lesson contents, questionnaire, interactive and collaborative activities, experiments, quiz, 3D objects and virtual lab simulations.

During the session several online platforms, plenty of simulators and resources have been shared with the educators to enhance the students’ engagement to a high degree. Educators were also be demonstrated how to automate recording the student’s classroom activities (individual and collectively), to understand and track the learning processes.

Augmented Reality is now started booming in the School Education. The AR in education enables students more freedom and independence when it comes to exploring topics and subjects. These are few significant online simulation platforms that has been discussed were:

- E- Pathshala Access Resource
- O Labs.edu.in
- Google earth
- Nearpod
- Phet.colorado.edu \
- desmos. com

The workshop has opened a new world for us to explore and enhance the teaching - learning process. I had a number of amazing moments during this session learnt a lot about online tools and resources. The workshop indeed stimulated the professional selves of teachers making them more confident, empowered them with new knowledge and aware facilitators with varied aspects of Digital technology.
