Topic : Super Teacher Workshop on Hybrid Schooling (Online Teaching Tools and Open Education Resources

“ High quality education provides learners with knowledge to become economically productive, to be able to develop sustainable livelihood, to contribute to society to make it better, peaceful and upgrade individual well being. The outcome of an education incudes literacy, numeracy, scientific knowledge and life skills. ”

On 16-05-2021, I attended the workshop on the topic online teaching tools and open education resources which was very informative session . More than 300 teachers attended the workshop.

He explained about many websites and app especially science students of class 6 - 10. He explained us about DESMOS, GEOGEBRA website especially for mathematics. He explained us about PHET , OLABS which is for class 9 to 12 for practical. He also explained about GOOGLE EARTH and econlink for commerce subjects.

The resource person who took the workshop was immensely experienced and professional. The interactions made sure that there was no low point in the session. It gave everyone a clear perspective for the long run. It was very informative and interactive and even quite fun filling session. I am very thankful to my school for giving me this wonderful opportunity to attend this webinar.
