Webinar report on topic” **NURTURING CREATIVITY IN CLASSROOM**” organized by **SAHODAYA GROUP OF CBSE SCHOOLS ,BHOPAL** by resource person **MS. KALA MOHAN (EDUCATIONIST)** focusses on following main points-

**“Creativity is now as important to education as literacy”**

#### **What is creativity?**

- Creativity is the act of turning new and imaginative ideas into reality.
- Creativity is characterized by the ability to perceive the world in new ways, to find hidden patterns, to make connections between unrelated phenomena and to generate solutions.
- Creativity involves two processes- thinking, then producing.
- Creativity is the process of bringing something new into being, creativity requires patience and commitment.

#### **Creativity mindsets**

- model creativity in the classroom
- great ideas don't always make sense to everyone at first.

#### **Develop students' creativity in the classroom**

- Create a compassionate, accepting environment
- Be present with students' ideas
- Encourage autonomy
- Re-word assignments to promote creative thinking
- Give students direct feedback on their creativity
- Help students know when it's appropriate to be creative

#### **Different ways to nurture our Creativity and Boost our Intuitive awareness**

- Pursue interests that energize you
- Take time out for regular meditation and reflection

- Experiment with creative materials
- Get plenty of sleep
- Do something special for yourself once a week
- Spend some time in nature
- Take up a hobby just for fun

The right mix of creativity along with curriculum helps students to be innovative and also encourages them to learn new things. Students can grow up as good communicators in addition to improving their emotional and social skills. Creative expression plays a key role in a student's emotional development.

It gives them the opportunity to create something tangible from personal feelings and experiences a beautiful reflection of their unique imaginations.

Really, it was totally knowledgeable session.
