ATTENDED BY : ANIL KUMAR TIWARI

Webinar report on topic “**VALUES EDUCATION AND ITS SIGNIFICANCE**” organised by **COE, CBSE, CHENNAI** by resource person **MS. PADMINI SRIRAMAN (EDUCATOR)** focusses on following main points-

Any human activity, thought or Idea, feeling or emotion which could promote the development of the individual in all its dimensions could be said to constitute a value.

Significance of value education:

- Values allowed the individuals to interact harmoniously.
- Values are a part of our identity.
- Values of like a compass that help us behave consistently.
- Values guide our actions and determine for us what's good or bad.

Importance of value education in schools:

- Promotes positive attitudes and behaviour
- improves communication abilities
- promotes healthy decision-making prevents negative and high-risk behaviours
- promotes sociability
- teachers anger control increases self-esteem and self-confidence
- improves academic performance
- Develop National spirit

Various purpose of value education:

- to develop the child's personality.
- to develop good attitude.
- to develop positive thinking- a dramatic way of living.
- to develop good citizenship qualities.
- to develop tolerance and make every student a kind person.

ABCD of working together values:

- A for awareness programmes
- B for brainstorming sessions
- C for content creation
- D for decision-making

Programs for developing values:

- community prayer
- health and cleanliness program socially useful productive work special class room situations cultural and recreational activities
- citizenship training
- social service program

Different methods for teaching values are discussion, debate, role play, brainstorm, storytelling and drama.

Basic themes form a part of values education in schools:

- think positive
- be compensated and do no harm
- discover inner peace
- learning to live together
- working harmoniously
- respect human dignity

Link values with lessons, art and sports:

- Teacher should conduct number of activities to promote national integration and international understanding.
- Teacher should develop national understanding of and respect of their culture, traditions and the ways of life in different sections of the nation.

A sense of equality of opportunity in political economic and social terms should be developed in the minds of young children.

Really, it was totally knowledgeable session.
