

Event Name: Roof Top Water Harvesting Workshop
Date: 17 August 2023
Venue: Assembly Ground

Roof top harvesting 17/08/23

Mr. Arun & Mr. Bharat Namdev, Engineer-Water Harvesting Expert, conducted a program at the school where they addressed students from grades 6 to 12. The focus of their talk was on the significance of rooftop water harvesting. The presentation was highly informative and engaging, as evidenced by the positive feedback they received from the students. Their insightful discussion on the importance of conserving water through rooftop harvesting resonated well with the audience. Even the principal acknowledged the value of their presentation and shared his thoughts on the subject. Overall, the program was well-received and effectively highlighted the importance of this crucial water conservation method.
