

## MICRO-TEACHING SESSION REPORT

**Date:** 21.03.2024

**Location:** Room no. 26, Bal Bharati Public School, Neelbad, Bhopal

### **Presenters:**

**1.Mr. Anil Kumar Tiwari (PGT-Chemistry)**

**Topic:** Characteristics of Chemical Reactions

**2.Mr. Manish Saxena (PGT-Mathematics)**

**Topic:** Rate of Change of Quantities

The micro-teaching session was organized with the aim of enhancing teaching skills among the educators of Bal Bharati Public School. It provided an opportunity for teachers to learn from each other's pedagogical approaches and refine their instructional techniques.

The micro-teaching session commenced with **Mr. Anil Kumar Tiwari** presenting on the "**Characteristics of Chemical Reactions.**" He elaborated on various aspects of Characteristics of Chemical Reactions. He utilized visual aids effectively to engage the audience and foster understanding. The presentation was well-structured and encouraged active participation from the attending teachers.

Following this, **Mr. Manish Saxena** delivered a session on the "**Rate of Change of Quantities**" within the domain of Mathematics. He elucidated concepts such as average rate of change and applications of derivatives in real-life scenarios.

Almost all teachers from various disciplines actively participated in the microteaching session. Their involvement showcased a collective eagerness to improve teaching methodologies and exchange insights with colleagues.

### **Feedback and Reflection:**

The micro-teaching session at Bal Bharati Public School proved to be a fruitful endeavour in fostering professional development among educators. Through collaborative learning and constructive feedback, teachers gained valuable insights into effective teaching practices. Such initiatives play a pivotal role in nurturing a culture of continuous improvement within the academic community.
