Dear Parents,

In our ongoing efforts to foster a healthy and environmentally conscious school environment, we kindly request your cooperation in ensuring that your child avoids using plastic lunch boxes, water bottles, and pencil boxes. Instead, we encourage the use of steel lunch boxes and water bottles, as well as cloth pencil pouches.

These eco-friendly alternatives not only contribute to reducing plastic waste but also promote better health and sustainability. Steel containers are durable, safe, and free from harmful chemicals, while cloth pouches are reusable and biodegradable.

We believe that by making these small changes, we can collectively make a significant positive impact on our environment and set a great example for our children about the importance of sustainable living.

Thank you for your understanding and support in this important initiative.
