Dear Parents,

I hope this message finds you well. We would like to take this opportunity to inform you of the numerous benefits associated with utilizing the school transport service as compared to private vans. Below is a detailed comparison:

School Transport	Private Vans
1. Always includes a lady attendant/teacher on board to assist with the needs and concerns of the children.	No lady attendant is provided.
2. Equipped with cameras for live recording, ensuring continuous monitoring of the journey.	No cameras installed.
3. GPS tracking is available to monitor the location of the bus in real-time.	No GPS tracking system.
4. A panic button is installed for use in case of an emergency.	No panic button available.
5. The bus documents are regularly updated and monitored by the school. They are supervised by the govt a ^{also} litho ^{authorities}	No regular monitoring of documents.
6. The driver and conductor are continuously monitored by the school authorities.	No supervision of drivers and conductors.
7. Regular attendance of students is taken while on the bus.	No attendance is taken.

In light of these safety and monitoring features, we strongly recommend opting for the school transport service to ensure the utmost safety and well-being of your child during their daily commute.

Thank you for your attention and continued support.
